## ***Read what these rock star dentists have to say about using CK Dental's bone allograft and surgical instruments:***

"I've been using CK Dental's surgical instruments for 10 years. I've replaced my elevators with CKDI Lexits and extraction and root tip removals are now much easier for me and the patient. My surgery is better, easier and faster with much less trauma to the socket area. With emphasis on ridge preservation after extraction, it is important to graft all extractions. CKDI's biologics I found to be the highest quality of many similar products. The price point plus quality makes CKDI biologics a no-brainer."

— *Dr. James Jesse*

"The shift in endodontics is that everything is getting smaller. CK Dental has been excellent in producing small instruments for big needs. For example, the JW-17 Canal Explorer is the thinnest you can get. As both inventor and consumer, CK's integrity for getting the job done is unmatched."

— *Dr. John West*

"As a doctor who teaches many seminars on implant and bone grafting surgeries each year, I need to be using the best instruments and bone allograft materials. CK Dental's wide array of products, including their bone allograft line, provide me just that."

— *Dr. Nilo Hernandez*

"CKDI offers a wide range of top quality dental products that I have implemented into my practice for several years. From the lifetime guaranteed Lexits to the best bone allograft materials I've used, CKDI has got it all. I could not recommend them enough!"

— *Dr. Dan McOewen*

"I have conducted multiple dental implant surgeries in my career. CKDI's bone allograft products and surgical implant tools have been a true pleasure to use. I highly recommend them."

— *Dr. Gene Shapiro*
